

NIKKI NEIL P. CARIÑO

Full-Stack Developer | QA Tester | AI-Assisted Software Developer

carino-portfolio.vercel.app | github.com/nikkineilcarino | 0949-343-3164 | nikkineil.carino@gmail.com

PROFESSIONAL SUMMARY

BS Information Technology graduate with internship experience in QA, software development, and AI prompt engineering. Hands-on experience testing enterprise applications, writing test cases, documenting defects, supporting full-stack web and mobile development, and collaborating in Agile teams. Skilled in React, Next.js, Laravel, PHP, Python, TypeScript, Kotlin, SQL, REST APIs, Git, and cross-functional collaboration.

CORE SKILLS

Full-Stack Development: React, Next.js, Laravel, PHP, Django REST Framework, REST APIs, API Integration

Frontend Development: TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI, Recharts

Backend & Databases: Python, PHP, MySQL, PostgreSQL, Firebase

Mobile Development: Kotlin, Flutter, Dart, Android Studio

Quality Assurance: Manual Testing, Functional Testing, Regression Testing, Test Case Design, Test Case Execution, Bug Reporting, Defect Verification

AI & Developer Tools: Prompt Engineering, OpenAI Codex, Claude, Google Colab, Roboflow, Teachable Machine

Tools: Git, GitHub, Visual Studio Code, Figma, Canva

PROFESSIONAL EXPERIENCE

QA Intern & Software Developer Intern - Prompt Engineering

Microgenesis Business Systems | 2026

- Performed functional, regression, and manual testing for enterprise web applications supporting internal business operations.
- Created, executed, and documented test cases to validate system functionality, user workflows, and application reliability.
- Reported software defects with clear reproduction steps, expected results, actual results, and supporting documentation.
- Collaborated with developers to verify bug fixes, retest issues, and support quality improvements before release.
- Contributed to enterprise application development using Python, TypeScript, and Tailwind CSS.
- Designed and refined AI prompts to support software development, QA documentation, test planning, and technical workflow improvement.
- Participated in Agile sprint planning, issue tracking, team coordination, and cross-functional collaboration.

PROJECTS

Microgenesis Central Hub | 2026

Software Developer Intern | Next.js, React, TypeScript, Tailwind CSS, Django REST Framework, PostgreSQL

- Contributed to a full-stack enterprise portal for user management, marketplace operations, notifications, and AI-assisted workflows.
- Supported frontend and backend implementation using modern web technologies and API-driven architecture.

OneOps | 2026

QA Intern & Software Developer Intern | Python, TypeScript

- Assisted in developing and testing an enterprise web application for product management, replacements, monthly billing, manpower costing, and operational workflows.
- Supported software quality assurance through test execution, defect documentation, and workflow verification.

BTr HCM | 2026

QA Intern & Software Developer Intern | Python, TypeScript

- Contributed to the development and quality assurance of a Human Capital Management web application for the Bureau of the Treasury.
- Supported testing and development tasks for HR-related enterprise workflows and application modules.

RecycLens | Capstone Project, 2025-2026

Project Manager & Mobile Developer | Kotlin, Python, Firebase, Google Colab, Teachable Machine

- Led planning, coordination, task management, and delivery of a gamified mobile app that teaches proper waste segregation to kindergarten students.
- Developed an Android-based application with machine learning and image recognition features for biodegradable and non-biodegradable waste classification.
- Coordinated project documentation, testing activities, team responsibilities, and defense preparation.

Mirror Your World | 2024-2025

Full-Stack Developer | PHP, MySQL, PHPMailer, FPDF/TCPDF

- Developed a business management and appointment booking web application for an aluminum and glass installation service.
- Built customer and admin features for account registration, consultation booking, scheduling, reviews, blocked dates, invoices, email notifications, project showcases, and PDF receipts.
- Implemented email notification and PDF generation features using PHPMailer and FPDF/TCPDF.

EDUCATION

University of Santo Tomas - Bachelor of Science in Information Technology | 2022-2026

Relevant Coursework: Software Engineering, Database Systems, Computer Networks, Information Security, Artificial Intelligence, Web Development, Mobile Development

LEADERSHIP EXPERIENCE

UST SOCC - Student Coordinator | 2022-2024

Society of Information Technology Enthusiasts - Academics & Research Staff | 2022-2023

UST UNESCO Club - Executive Associate for External Affairs | 2022-2023

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

IBM: Explore Emerging Tech | 2026

Come Vibe With Me: Future-Proofing the Thomasian Developer | 2026

Purple Pill: Merging Offense and Defense for Total Awareness | 2026

Sprint Like a Tiger: Agile Fundamentals | 2026

HP LIFE: Effective Leadership Course | 2025

Code Red: Unraveling the Frontlines of Network Security | 2024

IDEA: Improving Design and Enhancing Abilities | 2023

Fundamentals 2023 JavaScript Workshop CICS | 2023
