PROFESSIONAL SUMMARY

Information Technology graduate with internship experience in Quality Assurance (QA), software development, AI prompt engineering, and project management. Experienced in testing enterprise applications, developing full-stack web and mobile solutions, leading academic software projects, and applying AI-assisted development workflows. Proficient in React, Laravel, PHP, Python, Kotlin, TypeScript, SQL, Agile software development, and cross-functional team collaboration.

EDUCATION

University of Santo Tomas - BS Information Technology (2022 - 2026)

Relevant Coursework: Software Engineering, Database Systems, Computer Networks, Information Security, Artificial Intelligence, Web Development, Mobile Development

PROFESSIONAL EXPERIENCE

QA Intern & Software Developer Intern (Prompt Engineering)

Microgenesis Business Systems | 2026

- Performed functional, regression, and manual testing for enterprise web applications supporting internal business operations.
- Created and executed test cases, documented software defects, and collaborated with developers to verify issue resolution.
- Contributed to the development of enterprise web applications using Python, TypeScript, and Tailwind CSS.
- Designed AI prompts to improve software development, documentation, and QA workflows.
- Participated in Agile sprint planning, software testing, issue tracking, and cross-functional collaboration.

TECHNICAL SKILLS

Programming Languages: Python, PHP, TypeScript, JavaScript, Kotlin, Dart, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Laravel, Flutter, Django, Django REST Framework, Tailwind CSS, Material UI (MUI), Recharts

Databases: MySQL, PostgreSQL, Firebase

Web Technologies: REST APIs, API Integration, Full-Stack Web Development

Testing & QA: Manual Testing, Functional Testing, Regression Testing, Test Case Design, Test Case Execution, Bug Reporting, Defect Verification

Machine Learning & AI: Prompt Engineering, OpenAI Codex, Claude, Google Colab, Roboflow, Teachable Machine

Developer Tools: Git, GitHub, Visual Studio Code, Android Studio, Figma, Canva

PROJECTS

Microgenesis Central Hub (2026) – As a Software Developer Intern, contributed to the development of a full-stack enterprise portal using Next.js, React, TypeScript, Tailwind CSS, Django REST Framework, and PostgreSQL for user management, marketplace operations, notifications, and AI-assisted workflows.

OneOps (2026) – As a QA Intern and Software Developer Intern, developed an enterprise web application using Python and TypeScript for product management, replacements, monthly billing, manpower costing, and software quality assurance.

BTr HCM (2026) – As a QA Intern and Software Developer Intern, contributed to the development and quality assurance of a Human Capital Management web application for the Bureau of the Treasury using Python and TypeScript.

Recyclens (Capstone Project, 2025–2026) – As Project Manager and Mobile Developer, led project planning, task management, team coordination, and project delivery while developing a mobile application using Kotlin, Python, Firebase, Google Colab, and Teachable Machine that promotes proper waste segregation among children through machine learning and image recognition.

Mirror Your World (2024–2025) – As a Full-Stack Developer, developed a business management web application using PHP, MySQL, PHPMailer, and FPDF/TCPDF featuring consultation booking, appointment scheduling, review management, email notifications, invoice generation, and an administrative dashboard.

LEADERSHIP

UST SOCC – Student Coordinator (2022–2024)

Society of Information Technology Enthusiasts – Academics & Research Staff (2022–2023)

UNESCO Club – Executive Associate for External Affairs (2022–2023)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

IBM: Explore Emerging Tech (2026)

Come Vibe With Me: Future-Proofing the Thomasian Developer (2026)

Purple Pill: Merging Offense and Defense for Total Awareness (2026)

Sprint Like a Tiger: Agile Fundamentals (2026)

HP LIFE: Effective Leadership Course (2025)

Code Red: Unraveling the Frontlines of Network Security (2024)

IDEA: Improving Design and Enhancing Abilities (2023)

Fundamentals 2023 JavaScript Workshop CICS (2023)
